### ***Expanded larceny-theft data***

Expanded offense data are the details of the various offenses that the UCR Program collects beyond the count of how many crimes law enforcement agencies report. These details may include the type of weapon used in a crime, type or value of items stolen, and so forth. In addition, expanded data include trends (for example, 2-year comparisons) and rates per 100,000 inhabitants.

Expanded information regarding larceny-theft is available in the following tables:

Trends (2-year): Tables 12, 13, and 14

Rates (per 100,000 inhabitants): Tables 16, 17, and 18

Offense Analysis: Tables 7 and 23
