

## Data Declaration

### Table 24

#### **Property Stolen and Recovered, by Type and Value, 2008**

The FBI collects these data through the Uniform Crime Reporting (UCR) Program.

#### **General comment**

This table provides property types, the reported value of stolen property, and the value of recovered property. The table also lists the percentage of recovered value of each property type.

#### **Methodology**

The data used in creating this table were from all law enforcement agencies submitting at least 6 months of complete supplemental information regarding the monetary value of property stolen and recovered.

#### **Population estimation**

For the 2008 population estimates used in this table, the FBI computed individual rates of growth from one year to the next for every city/town and county using 2000 decennial population counts and 2001 through 2007 population estimates from the U.S. Census Bureau. Each agency's rates of growth were averaged; that average was then applied and added to its 2007 Census population estimate to derive the agency's 2008 population estimate.
